

Rules for the Recognition of Foreign Higher Education Diplomas by Cracow University of Technology

Art. 1 General Provisions

1. This document sets out the detailed procedures for the recognition of foreign higher education diplomas by Cracow University of Technology.
2. Whenever these rules refer to:
 1. dean – this shall be understood as the dean or vice-dean of the faculty,
 2. *k.p.a.* – this shall be understood as the Act of 14 June 1960 – Code of Administrative Procedure,
 3. proceedings – these shall be understood as the process of recognizing foreign higher education diplomas,
 4. vice-rector – this shall be understood as the vice-rector responsible for education and international cooperation,
 5. CUT – this shall be understood as Cracow University of Technology,
 6. MS&HE regulation – this shall be understood as the regulation of the Minister of Science and Higher Education of 28 September 2018, on the recognition of foreign higher education diplomas and the confirmation of completion of studies at a specified level,
 7. the Act – this shall be understood as the Act of 20 July 2018 – Law on Higher Education and Science.
3. The proceedings are initiated at the request of the interested party. The proceedings may be conducted at CUT provided that it holds an academic category of A+, A, or B+ in the relevant discipline.
4. The International Relations Office keeps a register of applications, issued certificates, refusals, and rulings related to the matters of recognition of foreign higher education diplomas.

Art. 2 Fees

1. A fee is charged for conducting the proceedings, amounting to 50% of a public university professor's salary, as specified in regulations issued under Article 137(2) of the Act. Of this fee, 10% remains at the disposal of the vice-rector to be transferred to the International Relations Office, while 90% of the fee is allocated to the faculty responsible for the substantive evaluation of the application.
2. The fee must be paid in Polish złoty into the bank account designated by CUT, regardless of the outcome of the proceedings. The date of payment is considered to be the date on which the bank account designated by CUT is credited.
3. No fee is charged if it is determined that CUT is not competent to conduct the proceedings.
4. In exceptional and particularly justified cases, especially those related to the applicant's difficult financial situation, a full or partial exemption from the fee may be granted upon a written request from the applicant. The request for a fee exemption is attached as Attachment no 1 to these rules.

5. The decision on fee exemption is made by the vice-rector after consulting the dean responsible for the substantive review of the application.

Art. 3 The proceedings

1. The recognition of a diploma (*nostryfikacja*) is a procedure which leads to a foreign higher education diploma being acknowledged as equivalent to the corresponding Polish diploma and professional title. The recognition process applies to diplomas that cannot be deemed equivalent based on an international agreement establishing equivalency.
2. An individual applying for diploma recognition submits a request to the vice-rector through the International Relations Office. The application template is provided in Attachment no 2 to these Rules.
3. The recognition procedure is considered to be initiated on the date the application referred to in section 2 is received by CUT.
4. The application must be submitted in a written form, either on paper or electronically. A paper application must bear a handwritten signature, while an electronic application must be signed with a qualified electronic signature, a trusted signature, or a personal signature.
5. The following documents must be attached to the application:
 1. the higher education diploma;
 2. documents that allow for an assessment of the study programme content, learning outcomes, and duration of studies, particularly a diploma supplement, a list of completed courses and obtained grades, an academic transcript, or another relevant document;
 3. a certificate, diploma, or another document on the basis of which the applicant was admitted to the study programme.
6. The documents referred to in section 5 must be submitted in their original form to allow an authorized CUT employee to make a certified copy.
7. The applicant submits the specified documents along with a standard translation into Polish and an *apostille* if the document was issued by an institution operating within the education system of a country that is a party to the Convention abolishing the requirement of legalization for foreign public documents concluded in the Hague on 5 October 1961; otherwise, the document must be legalized by:
 1. a consul of the Republic of Poland with jurisdiction over the country where the document was issued or within whose education or higher education system the document was issued; or
 2. a diplomatic mission or consular office accredited in Poland, another European Union member state, a European Free Trade Association (EFTA) member state that is a party to the European Economic Area Agreement, or a member state of the Organisation for Economic Co-operation and Development (OECD), representing the country where the document was issued or within whose education or higher education system it was issued.
8. The application must also include a certificate or information from the National Agency for Academic Exchange (<https://kwalifikator.nawa.gov.pl/>) regarding the possibility of recognizing the foreign diploma referred to in section 5(1), in Poland.

9. Upon receiving the application referred to in section 2 by CUT, the vice-rector, within no more than 14 days, analyzes whether CUT is competent to conduct the recognition proceedings, following a prior formal verification of the application by the International Relations Office.
10. If it is determined that CUT is not competent to conduct the recognition proceedings, the vice-rector issues a decision refusing to conduct the proceedings.
11. An appeal against the decision referred to in section 10 may be submitted to the Rector of CUT within 7 days from the date of its delivery.
12. If CUT is deemed competent to conduct the recognition proceedings but the application has formal deficiencies, the vice-rector requests the applicant to correct them within a specified period, no less than 14 days, under the penalty of leaving the application unprocessed.
13. Once the formal verification of the application is completed and the CUT's competence to conduct the recognition proceedings is confirmed, the vice-rector notifies the applicant of this fact and requests the payment of the fee specified in Art. 2(1) and submission of proof of payment within 14 days of the notification date.
14. An application that meets all formal requirements is forwarded by the vice-rector to the relevant dean for substantive evaluation. If there are doubts regarding which faculty should assess the application, the vice-rector consults the deans of all potentially competent faculties.
15. If the dean to whom the application was assigned determines that the substantive evaluation should be conducted by another faculty, they must submit to the vice-rector a written refusal to evaluate the application within 7 days of receiving it. The refusal must include the case documentation, a statement of reasons, and an indication of another faculty as substantively competent. In such a case, the vice-rector assigns the designated dean to carry out the substantive evaluation and transfers the relevant case documentation.
16. Upon receiving the application, the dean appoints a committee consisting of at least three academic staff members, including at least one professor, university professor, or assistant professor (*adiunkt*) with a habilitation degree (*doktor habilitowany*).
17. The Committee's task is to conduct a substantive evaluation of the application, particularly by comparing the study programme content, learning outcomes, professional qualifications, completed internships, and duration of studies completed by the applicant with similar study programmes, learning outcomes, qualifications, internships, and study durations offered at CUT.
18. In particularly justified cases, the Committee may require the applicant to provide translations of the documents listed in section 5 into Polish. These translations must be prepared and certified by a sworn translator or prepared by a foreign translator and certified by the relevant consul of the Republic of Poland.
19. The Committee conducts the substantive evaluation in accordance with section 17 and, no later than within 30 days of receiving the application, excluding any time spent waiting for the applicant to provide additional documents (including translations referred to in section 18), prepares a report containing one of the following opinions:
 - 1) a positive opinion, confirming the foreign diploma as equivalent to the corresponding Polish diploma and professional title;

- 2) a negative opinion, refusing recognition of the foreign diploma as equivalent to the corresponding Polish diploma and professional title;
- 3) a recommendation that the applicant take certain specified exams or complete professional internships, specifying their conditions and deadlines, in cases where differences in study programme content, including learning outcomes, are identified;

and submits it together with full case documentation to the dean.

20. The opinion referred to in sections 19(2) and 19(3) must include a statement of reasons.
21. The dean presents the application, along with the full case documentation and the Committee's opinion, to the faculty council (*kolegium wydziału*) for debate. The faculty council adopts a resolution on whether to accept or reject the Committee's opinion. The resolution of the faculty council is final.
22. If the applicant is required to take specific exams or complete professional internships in accordance with section 19(3):
 - 1) the dean informs the applicant in writing, providing a statement of reasons for the requirement to take specific exams or complete professional internships, and specifying detailed conditions and deadlines for taking the exams or completing the internships;
 - 2) the applicant is required to submit to the dean documents confirming the completion of the specified exams or internships immediately upon their completion;
 - 3) the dean, immediately upon receiving the documents referred to in point 2, or in the case of the applicant's failure to submit them within the specified time limit, forwards the application together with the complete case documentation to the Committee for a substantive reassessment. The Committee, no later than within 14 days from receiving the documents confirming the completion of the specified exams or internships from the dean, prepares a new report containing an opinion referred to in section 19(1) or 19(2). The report, along with the full case documentation, is then submitted to the dean, who forwards it for review by the faculty council.
23. After receiving the complete case documentation from the Committee, the dean submits it to the vice-rector along with the faculty council's resolution, no later than 60 days from the date of receiving the application, or, in the case referred to in section 22(3), immediately after the Committee prepares a new report and opinion, along with the faculty council's resolution.
24. The documentation referred to in section 23 must include:
 - 1) a draft certificate prepared according to the template specified in Attachment no 1 to the Ministry of Science and Higher Education (MNiSW) regulation, or
 - 2) a statement of reasons for refusing to recognize the foreign higher education diploma as equivalent to a Polish diploma and professional title.

25. The diploma recognition proceedings must be completed no later than within 90 days of the date of submitting an application meeting all formal requirements.
26. The time limits referred to in section 25 do not include periods allocated for taking exams or completing professional internships, as referred to in section 19(3), nor the time required for submitting translations, as referred to in section 18.
27. After receiving the documentation specified in sections 23 and 24, the vice-rector:
 - 1) recognizes the foreign higher education diploma as equivalent to a Polish diploma and professional title and issues an appropriate certificate in accordance with the template specified in Attachment no 1 to the *MNiSW* regulation, or
 - 2) issues an administrative decision refusing to recognize the foreign higher education diploma as equivalent to a Polish diploma and professional title.
28. The certificate or decision referred to in section 27 is delivered to the applicant in accordance with the provisions of the Code of Administrative Procedure (*k.p.a.*).
29. A person whose diploma has been recognized as equivalent to a Polish diploma and title may use the corresponding Polish title.
30. The refusal to recognize a diploma as equivalent to a Polish higher education diploma may occur particularly in the following cases:
 - 1) the institution that issued the diploma or where the education was received:
 - a) was not an accredited higher education institution under the internal law of the country in the higher education system of which it operates at the time of issuing the diploma, or conducted a study programme that was not accredited at the time of issuing the diploma, or
 - b) does not operate within the higher education system of any country, or
 - 2) the study programme or part of it was conducted in violation of the regulations of the country where the education was received;
 - 3) the person applying for recognition of their diploma obtained abroad has failed to fulfil the obligations outlined in the opinion referred to in section 19(3).
31. The decision refusing recognition of a foreign higher education diploma as equivalent to a Polish diploma and professional title may be appealed against by way of submitting a request for reconsideration of the case to the Rector of CUT.

Attachment no 1 to the Rules for the Recognition of Foreign Higher Education Diplomas
